Mentoring Policy

The Mentor Mentee policy document has been developed by the IQAC (Internal Quality Assurance Cell) of Dhanwate National College, Nagpur, and is applicable to all individuals involved in the college community. This policy recognizes the evolving challenges faced by students in their college lives, including academic pressures, job aspirations, career choices, and the need to acquire additional skills alongside their curriculum to ensure future employability. These factors often lead to increased anxiety and uncertainty among students regarding their success during and after college.

It is widely acknowledged that the key to students' success lies not only in the curriculum they study but also in their relationships with mentors, who can be their peers, teachers, or professionals. Understanding the diverse backgrounds of students hailing from urban, semi-urban, and rural areas across Vidarbha, with varied social, cultural, and economic contexts, it becomes crucial to provide continuous mentoring to address their academic, social, personal, and career-related needs.

In light of these considerations, Dhanwate National College has implemented a Mentor-Mentee system, whereby a group of students (Mentees) are assigned to a faculty member (Mentor) from the same department. To ensure the effectiveness of this program, the IQAC conducts regular mentoring sessions for faculty members, providing them with the necessary guidance and support.

The following policy outlines the framework and guidelines for the mentorship program at the college.

Mentor Mentee Mechanism

The Mentor-Mentee mechanism at Dhanwate National College operates according to the following guidelines:

1. **Assignment of Mentors:** Faculty members are designated as Mentors and each Mentor is responsible for a group of 40 to 50 students throughout the academic year.
2. **Continuity:** Once a student is assigned to a Mentor, they will maintain the same mentor-mentee relationship until the completion of the program. This fosters a sense of trust, continuity, and personalized support for the mentees.
3. **Student Mentors:** In addition to faculty Mentors, Student Mentors are appointed to assist slow learners. This is achieved through a buddy system, where capable students provide support, guidance, and encouragement to their peers who may require extra assistance in their academic journey.

By implementing these measures, the Mentor-Mentee mechanism aims to create a supportive environment for students, ensuring they receive consistent guidance, mentoring, and academic assistance throughout their college experience
