Activity: Bird Water Feeder Installation in college premises by NSS unit, Dhanwate National College, Nagpur

Sr.no		
1.	Academic Year	2023-2024
2.	Name of the Activity	Bird Water Feeder Installation in college premises
3.	Date of Activity	1st May 2024
4.	Organized by	NSS Unit, DNC, Nagpur
5.	Objective	• By providing water and food sources for birds, the college aims to support local bird populations, contributing to the conservation of biodiversity in the area. • The installation serves as an educational tool, raising awareness among students and staff about the importance of birds in the ecosystem and the role humans can play in supporting wildlife. • It provides a platform for research activities related to avian ecology, behavior, and conservation within the college premises, fostering scientific inquiry and student involvement. • Demonstrates the college's commitment to environmental sustainability and responsible stewardship of natural resources, encouraging others in the community to take similar actions. • Birds play crucial roles in maintaining ecosystem balance by controlling insect populations, pollinating plants, and dispersing seeds. By supporting bird populations, the college indirectly contributes to the health of the surrounding ecosystem.
6.	Brief Report	• On the occasion of Maharashtra Day, the NSS (National Service Scheme) unit of Dhanwate National College successfully installed a bird water feeder on the college premises. • The event was organized under the leadership of Dr. Omraj Deshmukh, Principal of Dhanwate National College. Prof. Srushtee Parchake and total 25 Volunteers actively participated in the installation process. • Total 10 Bird Feeder were Installed.
7.	Outcome	• The presence of water and food sources attracts a greater variety of bird species to the college premises, enhancing the biodiversity of the area. This can create opportunities for birdwatching and scientific observation. • Students, faculty, and visitors have the chance to learn about local bird species, their behaviors, and their ecological importance. This hands-on experience fosters a deeper understanding and appreciation of wildlife and environmental conservation.

		• The presence of bird feeders provides a focal point for community engagement activities such as birdwatching events, nature walks, and environmental education programs. This strengthens ties between the college and the local community while promoting environmental awareness. • Over time, the presence of bird feeders may contribute to the establishment of stable bird populations within the college premises, creating a lasting legacy of environmental conservation for future generations of students and the wider community.
